Local Dealer:

Maximize productivity and distribute incoming mail faster with the **FD 452 Envelope Opener**. Simple **one-button operation** engages the innovative cutting mechanism which **slits one side of the envelope** so the **contents are left undamaged**. Users can safely extract envelope contents **without the risk of sharp edges, or messy paper scraps**. The FD 452 opens a variety of envelope sizes, from #10s and BREs to 10" x 13" flats. Its unique **push arm provides constant pressure** to feed mixed mail quickly and accurately. The **resettable LCD counter** allows users to easily track the number of pieces processed. With a **speed of up to 300 envelopes per minute** and a **catch tray capacity of up to 80 #10 envelopes**, mail will be ready in no time.
