Local Dealer:

Separate multi-part forms quickly and easily with the **FD 676 Industrial Burster**. This rugged, all-metal high-volume unit is capable of operating continuously 24/7. It processes continuous forms up to 17" long at speeds up to 500 feet per minute while slitting, separating and stacking the forms. Standard features include slitters, tractor feed, safety interlocks, stand, and a conveyor outfeed.

**Accurate Feeding**  
Tractor feed and static eliminator ensure accurate feeding

**Easy to Load**  
Generous platform allows for large stacks to be burst

**Neat Outfeed**  
Conveyor wheels feed burst forms into a neat stack on the slanted outfeed rack

**Safety Interlocks**  
Plexi cover allows users to check processing, while safety locks stop the machine if the cover is open

**Convenient Waste Bin Access**  
Rugged cardboard bin collects slit pin-feed margins, and is easy to access for emptying
