Local Dealer:

The **Square iT2 Squareback Booklet Finisher** is a compact unit that squares booklet bindings and trims the face edge in a single pass. Squarebacked booklets lie flat, making them easier to pack, store, and ship, with the added option of printing on the spine. For full-bleed jobs, the side trim function trims the top and bottom of the booklet in multiple passes. The Square iT2 accommodates a wide range of booklet sizes, from 5" x 4.15" up to 12.6" x 12.2". It can handle booklets of up to 50 folded and stapled sheets / 200 page booklets of 20# Bond. The user-friendly color touchscreen allows operators of any skill level to store and recall custom job settings or simply walk up and start producing finished booklets.

Easy-To-Use Color Touchscreen
Graphics and text offer step-by-step setup instructions

Infeed Options
Hand-feed booklets or run in-line with a digital printer

Full-Bleed Trimming
Face trim with top-bottom trimming in multiple passes

Outfeed Conveyor Stacker
Keeps finished booklets in a neat, sequential order

Convenient Waste Tray
Trimmed edges are collected in the waste tray for easy disposal
