FD 87HD

LED Control Panel: Gives instant feedback during the punching process

Easy-To-Use Drop-In Slot: Accommodates 2.5" and 3.5" drives without adjustment

See the Process: Clear safety shield and LED light allow operators to see the puncher

Convenient Storage: After punching, drives slide into waste bin for storage prior to disposal

FD 87HD
HARD DRIVE DESTRUCTION

- Meets NSA Requirements for Hard Drive Destruction
- Powerful AC geared motor
- Punching die made of hardened, nickel-plated steel
- LED Control Panel
- Accommodates 2.5" and 3.5" drives

Visible Hard Drive Destruction in Seconds...

The **FD 87HD Hard Drive Punch** provides an added level of security by punching a hole through discarded hard drives. Simply load a hard drive into the feed chute, close the **transparent safety shield**, and with the push of a button, the **nickel-plated steel punch** punctures the hard drive. Data is then virtually unreadable, and drives can be re-inserted for multiple punches. The **convenient waste bin** holds punched drives until disposal or recycling. It handles the two most common **hard drive sizes, 2.5" and 3.5"**, without any additional adjustments. User-friendly features include an **LED control panel, low-noise design,** an **all-metal cabinet on casters, jam protection with auto reverse** and **automatic stop**.

Easy-to-Use Control Panel
Auto reverse, auto stop, and door open/bin full indicator lights

Nickel-Plated Steel Punching Die
Punching process is visible in the LED illuminated chamber

Easy to use
Simply load hard drive, close the safety shield and press start

Rugged All-Metal Cabinet
Convenient waste bin, and metal cabinet on casters for mobility

Visible Damage = Added Security
Data is virtually unreadable. Drive can be re-inserted for multiple punches

OPERATING FEATURES

Evaluated by NSA, meets requirements

Punching die made of nickel-plated steel

Powerful, efficient AC geared motor

LED illuminates punching chamber

Transparent safety shield

LED control panel

Auto reverse to clear jam and protect die

Convenient sturdy plastic waste bin

Low-noise design

Door safety sensor

All-metal cabinet with casters

Waste bin full sensor

Accommodates 2.5" and 3.5" hard drives

Drives can be punched multiple times

Easy-to-use drop-in slot

WARRANTY

Punching Die: Lifetime limited warranty

All other parts: 1 year warranty

SPECIFICATIONS

Punch Hole Size	.39" (10mm)
Hard Drive Size	2 1/2" or 3 1/2"
Feed Opening	4.65" (118mm)
Punching Cycle	14 seconds
Dimensions	19.68" W x 18.5" D x 35" H (50 x 47 x 89cm)
Weight	154 lbs (70kg)
Security Level	H-2 (DIN 66399 standard) Meets NSA/CSS requirements for Hard Drive Destruction Devices
Power Supply	110V, 50-60Hz
