The **ReadyCoilM Combination Punch and Coil Inserter** combines manual and electric operation for easy, efficient use in offices with low to medium volume. The **precision vertical punching system** utilizes gravity to keep every sheet in place, for consistent hole placement even on thicker document sets. **Disengageable punch pins** offer flexibility for a variety of paper sizes, and are specially hardened for longevity. The **electric coil inserter** automatically threads PVC spiral coil easily and effectively, while the **integrated coil cutting and crimping tool** gives projects a professional finish with a 45-degree coil crimp. Compact design and thoughtful features make the **ReadyCoilM** an economical solution for booklet finishing.

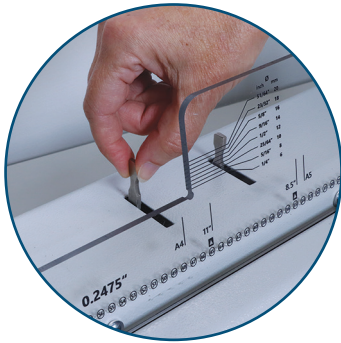

Precision Vertical Punching
Top loading for professional hole placement accuracy.

Clearly Marked Guides
Thickness gauge visually determines coil size.

Intuitive Adjustments
Simple knob slides to accommodate a variety of paper sizes.

Easy Access to Punch Pins
Disengage selected pins to prevent partially punched holes. No tools required.

Electric Coil Inserter
Convenient rubber roller effortlessly inserts plastic coils.

Integrated Coil Finishing
Included cutting and crimping tool for the perfect finish.
